

Annual Subject Index

(2E,4Z)-N-isobutyl-2,4-undecadiene-8,10-diyamide Binding interaction of Spilanthol and UDA with Malarial targets: Network pharmacology, ADME, Molecular docking, and Molecular dynamics simulation studies	604	Some Co(II)-Schiff base complexes as promising anticancer agents: A DFT and molecular docking study	354
(2E,6Z,8E)-N-isobutyl-2,6,8-decatrienamamide Binding interaction of Spilanthol and UDA with Malarial targets: Network pharmacology, ADME, Molecular docking, and Molecular dynamics simulation studies	604	Advanced wound care Progressive exploration on the influence of natural polymers and emerging biomaterials in advanced wound care strategies	127
1LDG <i>In silico</i> study of 4-amino substituted-7- chloroquinoline derivatives as <i>Plasmodium</i> <i>falciparum</i> lactate dehydrogenase inhibitors	443	Adverse events Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7
3-chlorobenzamide Docking studies, molecular structure, and spectroscopic analysis of 3-chlorobenzamide as an anti-cancer agent	204	AFLP Morphotaxonomy and Genetic diversity of different <i>Oxalis</i> species in Jharkhand, India	846
4-amino substituted-7-chloroquinolines <i>In silico</i> study of 4-amino substituted-7- chloroquinoline derivatives as <i>Plasmodium falciparum</i> lactate dehydrogenase inhibitors	443	ALL <i>In vitro</i> cytotoxicity analysis on patient-derived PBMCs to predict 6-mercaptopurine therapy response in children with acute lymphoblastic leukemia	371
5-chlorobenzimidazole Spectroscopic, computational, docking, and cytotoxicity studies on 5-chlorobenzimidazole as a Potent anti-breast cancer agent	804	Alzheimer's disease Assessing Inhibitory potential of natural compounds against BACE1 in Alzheimer's disease: A molecular docking and molecular dynamics simulation approach	345
6-thioguanine <i>In vitro</i> cytotoxicity analysis on patient-derived PBMCs to predict 6-mercaptopurine therapy response in children with acute lymphoblastic leukemia	371	Investigation of cholinergic inhibition by donepezil- rimegepant hybrids in alzheimer's disease: An <i>in silico</i> study	788
AChE Investigation of cholinergic inhibition by donepezil- rimegepant hybrids in alzheimer's disease: An <i>in silico</i> study	788	Analgesics Virtual screening of Ginsenosides for COX-2 inhibition: Insights from <i>in silico</i> docking studies	581
Acute myeloid leukemia Identification of potential lead compound from <i>Thuja</i> <i>occidentalis</i> as an inhibitor of FMS-like tyrosine kinase 3 (FLT3) in acute myeloid leukemia through virtual screening	472	Androgen deprivation therapy Plastic orchiectomy and some indicators of improvement of vital parameters and general condition of the organism in blood of the men with prostate cancer	39
ADAM8 (A disintegrin and metalloprotease 8) ADAM8 influences the activity of synovial macrophages and fibroblast-like synoviocytes in osteoarthritis	821	Anthocyanins Physiological evidence for the relationship between unsaturated fatty acid and cell permeability in extracellular polysaccharide synthesis and secretion <i>Agaricus bitorquis</i> (Quél.) Sacc. Chaidam	166
ADMET properties Homology modeling and molecular docking studies of INF1 protein of <i>Phytophthora infestans</i> in Potato	335	Anti-apoptotic Insights on the assessment of the potential of phytochemical chelating, protective, and detoxifying properties in managing chronic arsenic toxicity	387
ADMET Interaction of a new triazole compound with Serum albumins and Proteolytic enzyme Bromelain by Steady state fluorescence and Molecular docking techniques	305	Antibacterial activity <i>In vitro</i> efficacy of phytotherapeutics for the prevention of urinary tract infections in pregnant women	182
		Antibacterial Spectroscopic analysis, Microscopic imaging and Antibacterial activities of <i>Syzygium cumini</i> , <i>Andrographis paniculata</i> , <i>Gymnema sylvestre</i> and <i>Mimosa pudica</i>	539

Antibiotic resistance A statistical study on awareness of antibiotic resistance among the general population	504	AT/GC Some Co(II)-Schiff base complexes as promising anticancer agents: A DFT and molecular docking study	354
Antibiotics A statistical study on awareness of antibiotic resistance among the general population	504	Atomic Absorption Spectra Synthesis, spectral characterization and free radical scavenging activity of zinc-genistein nano complex	497
Anticancer The biological role of bioactive compounds from plants, bacteria, and bee-products in cancer prevention and therapy	455	Autoimmune Molecular interactions of some natural ligands to explore their mechanism of actions as PDE-4B and 4D inhibitors in psoriasis: A molecular docking study	321
Antiepileptic drug Assessing the protective effects of chard on valproic acid-induced pancreatic complications	517	Awareness Campaigns A statistical study on awareness of antibiotic resistance among the general population	504
Anti-inflammatory Insights on the assessment of the potential of phytochemical chelating, protective, and detoxifying properties in managing chronic arsenic toxicity	387	BACE1 Assessing Inhibitory potential of natural compounds against BACE1 in Alzheimer's disease: A molecular docking and molecular dynamics simulation approach	345
Virtual screening of Ginsenosides for COX-2 inhibition: Insights from <i>in silico</i> docking studies	581	Bacteria The biological role of bioactive compounds from plants, bacteria, and bee-products in cancer prevention and therapy	455
Anti-malarial activity Binding interaction of Spilanthol and UDA with Malarial targets: Network pharmacology, ADME, Molecular docking, and Molecular dynamics simulation studies	604	Bakanae <i>In silico</i> analysis and expression profiling for Resistance Gene Analogues (RGAs) and defence-related genes in early germinating conditions of rice against bakanae disease caused by <i>Fusarium fujikuroi</i>	714
Antioxidant activity <i>Vitex negundo</i> L. leaf extract suppresses the cell cycle and promotes apoptosis in colon cancer cells	269	BDNF/TrkB pathway Dexmedetomidine alleviates hippocampal neuronal damage in epilepsy through BDNF/TrkB pathway by inhibiting MeCP2	241
Antioxidant enzymes Plastic orchiectomy and some indicators of improvement of vital parameters and general condition of the organism in blood of the men with prostate cancer	39	<i>Beta vulgaris</i> L.var. <i>cicla</i> Assessing the protective effects of chard on valproic acid-induced pancreatic complications	517
Antioxidant Assessing the protective effects of chard on valproic acid-induced pancreatic complications	517	Binding affinity Homology modeling and molecular docking studies of INF1 protein of <i>Phytophthora infestans</i> in Potato	335
Insights on the assessment of the potential of phytochemical chelating, protective, and detoxifying properties in managing chronic arsenic toxicity	387	Bioactive compounds The biological role of bioactive compounds from plants, bacteria, and bee-products in cancer prevention and therapy	455
Synthesis, spectral characterization and free radical scavenging activity of zinc-genistein nano complex	497	Bioavailability Synthesis, spectral characterization and free radical scavenging activity of zinc-genistein nano complex	497
Apoptosis Cytotoxic and apoptotic effect of chalcone 5 on mouse colon cancer cells CT-26	145	Biochemical markers Antitumor activity of <i>Urtica dioica</i> seed extract on diethylnitrosamine-induced liver carcinogenesis in rats	16
Arsenic exposure Insights on the assessment of the potential of phytochemical chelating, protective, and detoxifying properties in managing chronic arsenic toxicity	387	Bioherbicide Evaluation of phenotypic characters and total phenol content in T1 putative transgenic yellow cosmos (<i>Cosmos sulphureus</i> Cav.) with <i>SoSPS1</i> transgene	704
ASD Computational investigation on the impact of point mutations on the N-terminal domain of SHANK3, indicating distinct synaptopathies in Autism spectrum disorder	527		

Bioinformatic analysis		Characterization	
Cloning, phylogeny and three dimensional structure analysis of the gene encoding Interferon- ϵ of Sheep (<i>Ovis aries</i>)	232	Transforming expired medicines into TiO ₂ nanoparticles	829
Biomarker		Chelating agent	
Computational strategies for identifying high-risk SNP of PTEN in prostate cancer: A Mutational profiling study	279	Insights on the assessment of the potential of phytochemical chelating, protective, and detoxifying properties in managing chronic arsenic toxicity	387
Biosimilars		Chemoprevention	
Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7	Lycopene enriched tomato extract exerts modulatory effects on hypoxia, angiogenesis and metastasis during N-nitrosodiethylamine (NDEA) induced hepatocellular carcinoma in mice	290
Breast cancer		Chemotherapy-induced	
Docking studies, molecular structure, and spectroscopic analysis of 3-chlorobenzamide as an anti-cancer agent	204	Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7
Deciphering the therapeutic potential of bergenin in breast cancer: <i>In silico</i> insights into HSP90AA1 and HRAS interaction mediated inhibition of PI3K-Akt and MAPK signaling pathway	639	Colon cancer	
Spectroscopic, computational, docking, and cytotoxicity studies on 5-chlorobenzimidazole as a Potent anti-breast cancer agent	804	Cytotoxic and apoptotic effect of chalcone 5 on mouse colon cancer cells CT-26	145
Bromelain		Colorectal cancer	
Interaction of a new triazole compound with Serum albumins and Proteolytic enzyme Bromelain by Steady state fluorescence and Molecular docking techniques	305	<i>Vitex negundo</i> L. leaf extract suppresses the cell cycle and promotes apoptosis in colon cancer cells	269
Butylated hydroxyanisole (BHA)		Copper	
Design, structural characterization, biological evaluation and molecular docking studies of methylindole bearing thiocarbamoylpyrazole moieties	418	Trace elements as potential biomarkers for oral squamous cell carcinoma	731
Caspase-3		Cost-effectiveness	
<i>In vitro</i> toxicological investigation of <i>Fusarium graminearum</i> toxins in <i>Rattus norvegicus</i> myocardial H9c2 cells	838	Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7
Catalase		COVID-19	
Deciphering the physio-biochemical dynamics of wheat (<i>T. aestivum</i> L.) genotypes during water deficit stress	563	Functional relationship of Interferon regulator factor-5, Interferon- γ , and Hypoxia-induced factor-1 α with COVID-19 during Pregnancy	259
Cell death		CTAB	
Cytotoxic and apoptotic effect of chalcone 5 on mouse colon cancer cells CT-26	145	Rapid genomic DNA extraction for Soybean (<i>Glycine max</i> L. Merr) using modified CTAB protocol to obtain high-quality DNA	97
Cell line		CuAAC	
Cytotoxic and apoptotic effect of chalcone 5 on mouse colon cancer cells CT-26	145	Interaction of a new triazole compound with Serum albumins and Proteolytic enzyme Bromelain by Steady state fluorescence and Molecular docking techniques	305
Cell membrane		Curcumin	
Physiological evidence for the relationship between unsaturated fatty acid and cell permeability in extracellular polysaccharide synthesis and secretion <i>Agaricus bitorquis</i> (Quél.) Sacc. Chaidam	166	Apoptotic effect of antioxidants with silver and titanium dioxide nanoparticles on glioblastoma cancer cells in BALB/C mice	776
Chalcones		Cytotoxicity	
Cytotoxic and apoptotic effect of chalcone 5 on mouse colon cancer cells CT-26	145	Spectroscopic, computational, docking, and cytotoxicity studies on 5-chlorobenzimidazole as a Potent anti-breast cancer agent	804
		Daunorubicin	
		Stabilization of G-quadruplexes in Intronic Hematopoietic-specific Enhancer of <i>WTL</i> gene with G-quadruplex targeting ligands: <i>in silico</i> and <i>in vitro</i> techniques	67

<i>Debaryomyces hansenii</i>		DNA nucleobases	
Characterization of DhHal3p: A moderately thermostable FMN-Binding Flavoprotein with biomedical potential from halotolerant yeast, <i>Debaryomyces hansenii</i> using partial structure prediction	430	Some Co(II)-Schiff base complexes as promising anticancer agents: A DFT and molecular docking study	354
		DNA oxidation	
		Evaluation of ethanol extract of <i>Morus nigra</i> L. as an inhibitory agent for DNA-Advanced glycation end product (DNA-AGEs)	75
Decarboxylase		DNA-AGEs	
Characterization of DhHal3p: A moderately thermostable FMN-Binding Flavoprotein with biomedical potential from halotolerant yeast, <i>Debaryomyces hansenii</i> using partial structure prediction	430	Evaluation of ethanol extract of <i>Morus nigra</i> L. as an inhibitory agent for DNA-Advanced glycation end product (DNA-AGEs)	75
Defence-related genes		Docking and ADME	
<i>In silico</i> analysis and expression profiling for Resistance Gene Analogues (RGAs) and defence-related genes in early germinating conditions of rice against bakanae disease caused by <i>Fusarium fujikuroi</i>	714	<i>In silico</i> study of 4-amino substituted-7-chloroquinoline derivatives as <i>Plasmodium falciparum</i> lactate dehydrogenase inhibitors	443
Density functional theory		Docking	
Investigation of cholinergic inhibition by donepezil-rimegepant hybrids in alzheimer's disease: An <i>in silico</i> study	788	Docking studies, molecular structure, and spectroscopic analysis of 3-chlorobenzamide as an anti-cancer agent	204
Deoxynivalenol		Characterization of DhHal3p: A moderately thermostable FMN-Binding Flavoprotein with biomedical potential from halotolerant yeast, <i>Debaryomyces hansenii</i> using partial structure prediction	430
<i>In vitro</i> toxicological investigation of <i>Fusarium graminearum</i> toxins in <i>Rattus norvegicus</i> myocardial H9c2 cells	838		
Dexmedetomidine		Identification of potential lead compound from <i>Thuja occidentalis</i> as an inhibitor of FMS-like tyrosine kinase 3 (FLT3) in acute myeloid leukemia through virtual screening	472
Dexmedetomidine alleviates hippocampal neuronal damage in epilepsy through BDNF/TrkB pathway by inhibiting MeCP2	241		
DFT		Spectroscopic, computational, docking, and cytotoxicity studies on 5-chlorobenzimidazole as a Potent anti-breast cancer agent	804
Docking studies, molecular structure, and spectroscopic analysis of 3-chlorobenzamide as an anti-cancer agent	204		
Design, structural characterization, biological evaluation and molecular docking studies of methylindole bearing thiocarbamoylpyrazole moieties	418	Donepezil	
		Investigation of cholinergic inhibition by donepezil-rimegepant hybrids in alzheimer's disease: An <i>in silico</i> study	788
Spectroscopic, computational, docking, and cytotoxicity studies on 5-chlorobenzimidazole as a Potent anti-breast cancer agent	804	Drug-likeness	
		Identification of potential lead compound from <i>Thuja occidentalis</i> as an inhibitor of FMS-like tyrosine kinase 3 (FLT3) in acute myeloid leukemia through virtual screening	472
DhHal3p		Ecological Footprint	
Characterization of DhHal3p: A moderately thermostable FMN-Binding Flavoprotein with biomedical potential from halotolerant yeast, <i>Debaryomyces hansenii</i> using partial structure prediction	430	Transforming expired medicines into TiO ₂ nanoparticles	829
Diethylnitrosamine		Emerging biomaterials	
Antitumor activity of <i>Urtica dioica</i> seed extract on diethylnitrosamine-induced liver carcinogenesis in rats	16	Progressive exploration on the influence of natural polymers and emerging biomaterials in advanced wound care strategies	127
DNA fructosylation		Epilepsy	
Evaluation of ethanol extract of <i>Morus nigra</i> L. as an inhibitory agent for DNA-Advanced glycation end product (DNA-AGEs)	75	Dexmedetomidine alleviates hippocampal neuronal damage in epilepsy through BDNF/TrkB pathway by inhibiting MeCP2	241

Even-toed ungulates Adaptive evolutionary research of the guanylate binding proteins family	765	FT-IR Spectroscopic analysis, Microscopic imaging and Antibacterial activities of <i>Syzygium cumini</i> , <i>Andrographis paniculata</i> , <i>Gymnema sylvestre</i> and <i>Mimosa pudica</i>	539
Exhaustive docking Computational screening, docking and simulation analysis of phytochemicals from <i>Senna auriculata</i> against multiple targets of <i>Mycobacterium tuberculosis</i>	688	Fukui function Docking studies, molecular structure, and spectroscopic analysis of 3-chlorobenzamide as an anti-cancer agent	204
Expired Medicines Transforming expired medicines into TiO ₂ nanoparticles	829	Fungicide Homology modeling and molecular docking studies of INF1 protein of <i>Phytophthora infestans</i> in Potato	335
Fatty acids Plastic orchietomy and some indicators of improvement of vital parameters and general condition of the organism in blood of the men with prostate cancer	39	<i>Fusarium fujikuroi</i> <i>In silico</i> analysis and expression profiling for Resistance Gene Analogues (RGAs) and defence-related genes in early germinating conditions of rice against bakanae disease caused by <i>Fusarium fujikuroi</i>	714
Febrile neutropenia Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7	<i>Fusarium graminearum</i> <i>In vitro</i> toxicological investigation of <i>Fusarium graminearum</i> toxins in <i>Rattus norvegicus</i> myocardial H9c2 cells	838
Febuxostat Evaluation of inhibitory activity of few selected triazoles on xanthine oxidase – <i>In silico</i> studies	485	GAP-AMR A statistical study on awareness of antibiotic resistance among the general population	504
Fibroblast-like synoviocytes ADAM8 influences the activity of synovial macrophages and fibroblast-like synoviocytes in osteoarthritis	821	GCSFs Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7
Field capacity Deciphering the physio-biochemical dynamics of wheat (<i>T. aestivum</i> L.) genotypes during water deficit stress	563	Genetic diversity Morphotaxonomy and Genetic diversity of different <i>Oxalis</i> species in Jharkhand, India	846
Flavonoids The biological role of bioactive compounds from plants, bacteria, and bee-products in cancer prevention and therapy	455	Genistein Synthesis, spectral characterization and free radical scavenging activity of zinc-genistein nano complex	497
Flavoprotein Characterization of DhHal3p: A moderately thermostable FMN-Binding Flavoprotein with biomedical potential from halotolerant yeast, <i>Debaryomyces hansenii</i> using partial structure prediction	430	Genomic Rapid genomic DNA extraction for Soybean (<i>Glycine max</i> L. Merr) using modified CTAB protocol to obtain high-quality DNA	97
Floral dip Evaluation of phenotypic characters and total phenol content in T1 putative transgenic yellow cosmos (<i>Cosmos sulphureus</i> Cav.) with <i>SoSPS1</i> transgene	704	Ginsenosides Virtual screening of Ginsenosides for COX-2 inhibition: Insights from <i>in silico</i> docking studies	581
Fluidity Physiological evidence for the relationship between unsaturated fatty acid and cell permeability in extracellular polysaccharide synthesis and secretion <i>Agaricus bitorquis</i> (Quél.) Sacc. Chaidam	166	GLASS A statistical study on awareness of antibiotic resistance among the general population	504
Fluorescence Interaction of a new triazole compound with Serum albumins and Proteolytic enzyme Bromelain by Steady state fluorescence and Molecular docking techniques	305	Glioblastoma Apoptotic effect of antioxidants with silver and titanium dioxide nanoparticles on glioblastoma cancer cells in BALB/C mice	776

G-quadruplex Stabilization of G-quadruplexes in Intronic Hematopoietic-specific Enhancer of <i>WT1</i> gene with G-quadruplex targeting ligands: <i>in silico</i> and <i>in vitro</i> techniques	67	Honeybee products The biological role of bioactive compounds from plants, bacteria, and bee-products in cancer prevention and therapy	455
GROMACS Computational strategies for identifying high-risk SNP of PTEN in prostate cancer: A Mutational profiling study	279	Human embryonic stem cells Identification of a new MYBL2 isoform with distinct subcellular distribution	620
Guanylate binding proteins Adaptive evolutionary research of the guanylate binding proteins family	765	IFN- γ Functional relationship of Interferon regulator factor-5, Interferon- γ , and Hypoxia-induced factor-1 α with COVID-19 during Pregnancy	259
Halophiles Optimization studies of L-glutaminase production from <i>Halomonas hydrothermalis</i> B-15-9-2 isolated along Gujarat coasts	153	Immune checkpoint inhibitors Molecular docking and dynamics analysis to reveal the therapeutic potential of Dostarlimab against novel immune targets in liver cancer	740
HCT116-colon cancer cells <i>Vitex negundo</i> L. leaf extract suppresses the cell cycle and promotes apoptosis in colon cancer cells	269	Immune targets Molecular docking and dynamics analysis to reveal the therapeutic potential of Dostarlimab against novel immune targets in liver cancer	740
Hepatocellular carcinoma Lycopene enriched tomato extract exerts modulatory effects on hypoxia, angiogenesis and metastasis during N-nitrosodiethylamine (NDEA) induced hepatocellular carcinoma in mice	290	Immune therapy Molecular docking and dynamics analysis to reveal the therapeutic potential of Dostarlimab against novel immune targets in liver cancer	740
Molecular docking and dynamics analysis to reveal the therapeutic potential of Dostarlimab against novel immune targets in liver cancer	740	<i>In silico</i> analysis Assessing Inhibitory potential of natural compounds against BACE1 in Alzheimer's disease: A molecular docking and molecular dynamics simulation approach	345
Herbal medicine Virtual screening of Ginsenosides for COX-2 inhibition: Insights from <i>in silico</i> docking studies	581	Evaluating the anti-cancer activity of myricetin in the management of oral cancer using <i>in silico</i> analysis	659
Heterometrus laoticus cytochrome Design, structural characterization, biological evaluation and molecular docking studies of methylindole bearing thiocarbamoylpyrazole moieties	418	<i>In silico</i> pharmacokinetics Repurposing drugs as uS12 ribosomal protein inhibitors to overcome UTI resistance in MDR <i>Pseudomonas</i> strains: <i>In silico</i> and <i>in vitro</i> study	672
HIF-1 α Functional relationship of Interferon regulator factor-5, Interferon- γ , and Hypoxia-induced factor-1 α with COVID-19 during Pregnancy	259	<i>In silico</i> Studies Evaluation of inhibitory activity of few selected triazoles on xanthine oxidase – <i>In silico</i> studies	485
Hippocampal neuron Dexmedetomidine alleviates hippocampal neuronal damage in epilepsy through BDNF/TrkB pathway by inhibiting MeCP2	241	<i>In silico</i> Homology modeling and molecular docking studies of INF1 protein of <i>Phytophthora infestans</i> in Potato	335
Histopathology Antitumor activity of <i>Urtica dioica</i> seed extract on diethylnitrosamine-induced liver carcinogenesis in rats	16	Indole Design, structural characterization, biological evaluation and molecular docking studies of methylindole bearing thiocarbamoylpyrazole moieties	418
Homology modelling Therapeutic potential of Stigmasterol and Kaempferol on multidrug-resistant malaria	197	Inflammation Molecular interactions of some natural ligands to explore their mechanism of actions as PDE-4B and 4D inhibitors in psoriasis: A molecular docking study	321
		Inhibitory activity Evaluation of inhibitory activity of few selected triazoles on xanthine oxidase – <i>In silico</i> studies	485

Interferon- ϵ Cloning, phylogeny and three dimensional structure analysis of the gene encoding Interferon- ϵ of Sheep (<i>Ovis aries</i>)	232	Lycopene Lycopene enriched tomato extract exerts modulatory effects on hypoxia, angiogenesis and metastasis during N-nitrosodiethylamine (NDEA) induced hepatocellular carcinoma in mice	290
IRF-5 Functional relationship of Interferon regulator factor-5, Interferon- γ , and Hypoxia-induced factor-1 α with COVID-19 during Pregnancy	259	<i>Lycopersicon esculentum</i> Lycopene enriched tomato extract exerts modulatory effects on hypoxia, angiogenesis and metastasis during N-nitrosodiethylamine (NDEA) induced hepatocellular carcinoma in mice	290
Iron Trace elements as potential biomarkers for oral squamous cell carcinoma	731	Lysine Assessment of quality protein parameters of <i>Zea mays</i> L. through high throughput biochemical analysis	627
Isoform Identification of a new MYBL2 isoform with distinct subcellular distribution	620	Maize quality index Assessment of quality protein parameters of <i>Zea mays</i> L. through high throughput biochemical analysis	627
Isolation Rapid genomic DNA extraction for Soybean (<i>Glycine max</i> L. Merr) using modified CTAB protocol to obtain high-quality DNA	97	Macrophage polarization ADAM8 influences the activity of synovial macrophages and fibroblast-like synoviocytes in osteoarthritis	821
Isovitexin A comprehensive computational study of Millets derived phytochemicals as potential inhibitors of NACHT domain of NLRP3 inflammasome: Molecular docking, molecular dynamics simulation, MM-PBSA free energy calculation and DFT analysis	223	Magnesium Trace elements as potential biomarkers for oral squamous cell carcinoma	731
Jharkhand Morphotaxonomy and Genetic diversity of different <i>Oxalis</i> species in Jharkhand, India	846	Malabar tamarind Inhibition of NF- κ B signalling pathway by methanol extract of fruit pericarp of <i>Garcinia gummi-gutta</i> in inflammatory breast cancer with triple negative phenotype	589
Kaempferol Therapeutic potential of Stigmasterol and Kaempferol on multidrug-resistant malaria	197	Malaria <i>In silico</i> study of 4-amino substituted-7-chloroquinoline derivatives as <i>Plasmodium falciparum</i> lactate dehydrogenase inhibitors	443
Laccase Binding interaction of laccases and Peroxidases from <i>Bacillus Subtilis</i> after Industrial dyes exposure: Molecular docking and Molecular dynamics simulation studies	48	Malaria-related targets Binding interaction of Spilanthol and UDA with Malarial targets: Network pharmacology, ADME, Molecular docking, and Molecular dynamics simulation studies	604
Lipid reprogramming Plastic orchietomy and some indicators of improvement of vital parameters and general condition of the organism in blood of the men with prostate cancer	39	Marine enzymes Optimization studies of L-glutaminase production from <i>Halomonas hydrothermalis</i> B-15-9-2 isolated along Gujarat coasts	153
Liver carcinogenesis Antitumor activity of <i>Urtica dioica</i> seed extract on diethylnitrosamine-induced liver carcinogenesis in rats	16	MCC950 A comprehensive computational study of Millets derived phytochemicals as potential inhibitors of NACHT domain of NLRP3 inflammasome: Molecular docking, molecular dynamics simulation, MM-PBSA free energy calculation and DFT analysis	223
Liver Cloning, phylogeny and three dimensional structure analysis of the gene encoding Interferon- ϵ of Sheep (<i>Ovis aries</i>)	232	MDA-MB-231 Inhibition of NF- κ B signalling pathway by methanol extract of fruit pericarp of <i>Garcinia gummi-gutta</i> in inflammatory breast cancer with triple negative phenotype	589
Lupeol Computational screening, docking and simulation analysis of phytochemicals from <i>Senna auriculata</i> against multiple targets of <i>Mycobacterium tuberculosis</i>	688		

MDR strains Repurposing drugs as uS12 ribosomal protein inhibitors to overcome UTI resistance in MDR <i>Pseudomonas</i> strains: <i>In silico</i> and <i>in vitro</i> study	672	Molecular docking Binding interaction of laccases and Peroxidases from <i>Bacillus Subtilis</i> after Industrial dyes exposure: Molecular docking and Molecular dynamics simulation studies	48
MeCP2 Dexmedetomidine alleviates hippocampal neuronal damage in epilepsy through BDNF/TrkB pathway by inhibiting MeCP2	241	Therapeutic potential of Stigmasterol and Kaempferol on multidrug-resistant malaria	197
Medicinal plant powders Spectroscopic analysis, Microscopic imaging and Antibacterial activities of <i>Syzygium cumini</i> , <i>Andrographis paniculata</i> , <i>Gymnema sylvestre</i> and <i>Mimosa pudica</i>	539	Interaction of a new triazole compound with Serum albumins and Proteolytic enzyme Bromelain by Steady state fluorescence and Molecular docking techniques	305
Membrane stability index Deciphering the physio-biochemical dynamics of wheat (<i>T. aestivum</i> L.) genotypes during water deficit stress	563	Assessing Inhibitory potential of natural compounds against BACE1 in Alzheimer's disease: A molecular docking and molecular dynamics simulation approach	345
Metal flavonoid complex Synthesis, spectral characterization and free radical scavenging activity of zinc-genistein nano complex	497	QSAR and molecular docking studies on pyrimidine and pyrrolidine derivatives as potent inhibitors of influenza virus neuraminidase	401
Methyl-mercaptopurine <i>In vitro</i> cytotoxicity analysis on patient-derived PBMCs to predict 6-mercaptopurine therapy response in children with acute lymphoblastic leukemia	371	Identification of small molecule inhibitors against doublecortin-like kinase 1 for targeting colon cancer stem cells	552
Mg ⁺ -ATPase Interplay between NMDA receptor modulation and Na ⁺ /K ⁺ ATPase activity under the social isolation-induced stress in the hippocampus of male rats	32	Virtual screening of Ginsenosides for COX-2 inhibition: Insights from <i>in silico</i> docking studies	581
Millets A comprehensive computational study of Millets derived phytochemicals as potential inhibitors of NACHT domain of NLRP3 inflammasome: Molecular docking, molecular dynamics simulation, MM-PBSA free energy calculation and DFT analysis	223	Deciphering the therapeutic potential of bergenin in breast cancer: <i>In silico</i> insights into HSP90AA1 and HRAS interaction mediated inhibition of PI3K-Akt and MAPK signaling pathway	639
Minitab Preparation and evaluation of spray dried powder of <i>Trigonella foenum-graecum</i> seeds as suspending agents to develop rivaroxaban nanosuspension	105	Molecular docking and dynamics analysis to reveal the therapeutic potential of Dostarlimab against novel immune targets in liver cancer	740
miR-455 Apoptotic effect of antioxidants with silver and titanium dioxide nanoparticles on glioblastoma cancer cells in BALB/C mice	776	Evaluating the anti-cancer activity of myricetin in the management of oral cancer using <i>in silico</i> analysis	659
Missense mutation Computational strategies for identifying high-risk SNP of PTEN in prostate cancer: A Mutational profiling study	279	Investigation of cholinergic inhibition by donepezil-rimegepant hybrids in alzheimer's disease: An <i>in silico</i> study	788
Mitoxantrone Stabilization of G-quadruplexes in Intronic Hematopoietic-specific Enhancer of <i>WT1</i> gene with G-quadruplex targeting ligands: <i>in silico</i> and <i>in vitro</i> techniques	67	Molecular dynamics simulation Computational strategies for identifying high-risk SNP of PTEN in prostate cancer: A Mutational profiling study	279
		Computational investigation on the impact of point mutations on the N-terminal domain of SHANK3, indicating distinct synaptopathies in Autism spectrum disorder	527
		Deciphering the therapeutic potential of bergenin in breast cancer: <i>In silico</i> insights into HSP90AA1 and HRAS interaction mediated inhibition of PI3K-Akt and MAPK signaling pathway	639
		Molecular dynamics Binding interaction of laccases and Peroxidases from <i>Bacillus Subtilis</i> after Industrial dyes exposure: Molecular docking and Molecular dynamics simulation studies	48

Molecular identification		Myricetin	
Optimization studies of L-glutaminase production from <i>Halomonas hydrothermalis</i> B-15-9-2 isolated along Gujarat coasts	153	Evaluating the anti-cancer activity of myricetin in the management of oral cancer using <i>in silico</i> analysis	659
Molecular interactions		Na ⁺ /K ⁺ -ATPase subunits	
Molecular interactions of some natural ligands to explore their mechanism of actions as PDE-4B and 4D inhibitors in psoriasis: A molecular docking study	321	Interplay between NMDA receptor modulation and Na/K ATPase activity under the social isolation-induced stress in the hippocampus of male rats	32
Molecular simulation		Nanoparticles	
Identification of small molecule inhibitors against doublecortin-like kinase 1 for targeting colon cancer stem cells	552	Apoptotic effect of antioxidants with silver and titanium dioxide nanoparticles on glioblastoma cancer cells in BALB/C mice	776
Molecular docking and dynamics analysis to reveal the therapeutic potential of Dostarlimab against novel immune targets in liver cancer	740	Transforming expired medicines into TiO ₂ nanoparticles	829
Morphology		Natural ligands	
Morphotaxonomy and Genetic diversity of different <i>Oxalis</i> species in Jharkhand, India	846	Molecular interactions of some natural ligands to explore their mechanism of actions as PDE-4B and 4D inhibitors in psoriasis: A molecular docking study	321
<i>Morus nigra</i> L.		Natural polymers	
Evaluation of ethanol extract of <i>Morus nigra</i> L. as an inhibitory agent for DNA-Advanced glycation end product (DNA-AGEs)	75	Progressive exploration on the influence of natural polymers and emerging biomaterials in advanced wound care strategies	127
Mouse cell line		NCI	
Cytotoxic and apoptotic effect of chalcone 5 on mouse colon cancer cells CT-26	145	Some Co(II)-Schiff base complexes as promising anticancer agents: A DFT and molecular docking study	354
Mucilage		Network pharmacology	
Preparation and evaluation of spray dried powder of <i>Trigonella foenum-graecum</i> seeds as suspending agents to develop rivaroxaban nanosuspension	105	Deciphering the therapeutic potential of berberine in breast cancer: <i>In silico</i> insights into HSP90AA1 and HRAS interaction mediated inhibition of PI3K-Akt and MAPK signaling pathway	639
Multi-omics joint analysis		Neural stem cell	
Physiological evidence for the relationship between unsaturated fatty acid and cell permeability in extracellular polysaccharide synthesis and secretion <i>Agaricus bisporus</i> (Qué.) Sacc. Chaidam	166	Identification of a new MYBL2 isoform with distinct subcellular distribution	620
Multiple-epitope		Neuraminidase inhibitors	
The comprehensive computational study on PE11 gene of <i>Mycobacterium tuberculosis</i> involved in virulence	85	QSAR and molecular docking studies on pyrimidine and pyrrolidine derivatives as potent inhibitors of influenza virus neuraminidase	401
Multiple target approach		Nivalenol	
Computational screening, docking and simulation analysis of phytochemicals from <i>Senna auriculata</i> against multiple targets of <i>Mycobacterium tuberculosis</i>	688	<i>In vitro</i> toxicological investigation of <i>Fusarium graminearum</i> toxins in <i>Rattus norvegicus</i> myocardial H9c2 cells	838
MYBL2		NLRP3 inflammasome	
Identification of a new MYBL2 isoform with distinct subcellular distribution	620	A comprehensive computational study of Millets derived phytochemicals as potential inhibitors of NACHT domain of NLRP3 inflammasome: Molecular docking, molecular dynamics simulation, MM-PBSA free energy calculation and DFT analysis	223
Mycobacterium		NMDA receptor	
The comprehensive computational study on PE11 gene of <i>Mycobacterium tuberculosis</i> involved in virulence	85	Interplay between NMDA receptor modulation and Na/K ATPase activity under the social isolation-induced stress in the hippocampus of male rats	32
Myelotoxicity			
<i>In vitro</i> cytotoxicity analysis on patient-derived PBMCs to predict 6-mercaptopurine therapy response in children with acute lymphoblastic leukemia	371		

Nuclear factor kappa-light-chain-enhancer of activated B cells		Pancreas	
Inhibition of NF- κ B signalling pathway by methanol extract of fruit pericarp of <i>Garcinia gummi-gutta</i> in inflammatory breast cancer with triple negative phenotype	589	Assessing the protective effects of chard on valproic acid-induced pancreatic complications	517
<i>Ocimum sanctum</i>		Pathogen	
<i>In vitro</i> efficacy of phytotherapeutics for the prevention of urinary tract infections in pregnant women	182	Homology modeling and molecular docking studies of INF1 protein of <i>Phytophthora infestans</i> in Potato	335
Odd-toed ungulates		PE11	
Adaptive evolutionary research of the guanylate binding proteins family	765	The comprehensive computational study on PE11 gene of <i>Mycobacterium tuberculosis</i> involved in virulence	85
Oral bioavailability		Pegfilgrastim	
Identification of potential lead compound from <i>Thuja occidentalis</i> as an inhibitor of FMS-like tyrosine kinase 3 (FLT3) in acute myeloid leukemia through virtual screening	472	Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7
Oral cancer		<i>Peltophorum pterocarpum</i>	
Evaluating the anti-cancer activity of myricetin in the management of oral cancer using <i>in silico</i> analysis	659	Deciphering the therapeutic potential of bergenin in breast cancer: <i>In silico</i> insights into HSP90AA1 and HRAS interaction mediated inhibition of PI3K-Akt and MAPK signaling pathway	639
Oral squamous cell carcinoma		Peroxidase	
Trace elements as potential biomarkers for oral squamous cell carcinoma	731	Binding interaction of laccases and Peroxidases from <i>Bacillus Subtilis</i> after Industrial dyes exposure: Molecular docking and Molecular dynamics simulation studies	48
Osteoarthritis		Deciphering the physio-biochemical dynamics of wheat (<i>T. aestivum</i> L.) genotypes during water deficit stress	563
ADAM8 influences the activity of synovial macrophages and fibroblast-like synoviocytes in osteoarthritis	821	Pfmdr1 protein	
Ovarian cancer		Therapeutic potential of Stigmasterol and Kaempferol on multidrug-resistant malaria	197
Docking studies, molecular structure, and spectroscopic analysis of 3-chlorobenzamide as an anti-cancer agent	204	Pharmacodynamic and pharmacokinetic profiles	
Overexpression		Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7
Evaluation of phenotypic characters and total phenol content in T1 putative transgenic yellow cosmos (<i>Cosmos sulphureus</i> Cav.) with <i>SoSPS1</i> transgene	704	Phosphodiesterase	
<i>Oxalis</i>		Molecular interactions of some natural ligands to explore their mechanism of actions as PDE-4B and 4D inhibitors in psoriasis: A molecular docking study	321
Morphotaxonomy and Genetic diversity of different <i>Oxalis</i> species in Jharkhand, India	846	Phospholipids	
Oxidative stress		Plastic orchietomy and some indicators of improvement of vital parameters and general condition of the organism in blood of the men with prostate cancer	39
Assessing the protective effects of chard on valproic acid-induced pancreatic complications	517	Phycocyanin inhibition	
Interplay between NMDA receptor modulation and Na/K ATPase activity under the social isolation-induced stress in the hippocampus of male rats	32	Repurposing drugs as uS12 ribosomal protein inhibitors to overcome UTI resistance in MDR <i>Pseudomonas</i> strains: <i>In silico</i> and <i>in vitro</i> study	672
P141A and L270M mutations		Phylogenetic and evolutionary characteristics	
Computational investigation on the impact of point mutations on the N-terminal domain of SHANK3, indicating distinct synaptopathies in Autism spectrum disorder	527	Adaptive evolutionary research of the guanylate binding proteins family	765
		Physicochemical analysis	
		Optimization studies of L-glutaminase production from <i>Halomonas hydrothermalis</i> B-15-9-2 isolated along Gujarat coasts	153

Phytochemicals		Prostaglandin G/H synthase 2	
A comprehensive computational study of Millets derived phytochemicals as potential inhibitors of NACHT domain of NLRP3 inflammasome: Molecular docking, molecular dynamics simulation, MM-PBSA free energy calculation and DFT analysis	223	Binding interaction of Spilanthalol and UDA with Malarial targets: Network pharmacology, ADME, Molecular docking, and Molecular dynamics simulation studies	604
Identification of potential lead compound from <i>Thuja occidentalis</i> as an inhibitor of FMS-like tyrosine kinase 3 (FLT3) in acute myeloid leukemia through virtual screening	472	Prostate cancer	
Insights on the assessment of the potential of phytochemical chelating, protective, and detoxifying properties in managing chronic arsenic toxicity	387	Plastic orchiectomy and some indicators of improvement of vital parameters and general condition of the organism in blood of the men with prostate cancer	39
PI3K-Akt signaling pathway		Protein-drug interaction	
Evaluating the anti-cancer activity of myricetin in the management of oral cancer using <i>in silico</i> analysis	659	Repurposing drugs as uS12 ribosomal protein inhibitors to overcome UTI resistance in MDR <i>Pseudomonas</i> strains: <i>In silico</i> and <i>in vitro</i> study	672
Plant adaptation		Protein-ligand interaction	
Morphotaxonomy and Genetic diversity of different <i>Oxalis</i> species in Jharkhand, India	846	Identification of small molecule inhibitors against doublecortin-like kinase 1 for targeting colon cancer stem cells	552
Plant based drug		Psoriasis	
<i>In vitro</i> efficacy of phytotherapeutics for the prevention of urinary tract infections in pregnant women	182	Molecular interactions of some natural ligands to explore their mechanism of actions as PDE-4B and 4D inhibitors in psoriasis: A molecular docking study	321
Plants		Purity	
The biological role of bioactive compounds from plants, bacteria, and bee-products in cancer prevention and therapy	455	Rapid genomic DNA extraction for Soybean (<i>Glycine max</i> L. Merr) using modified CTAB protocol to obtain high-quality DNA	97
<i>Plasmodium falciparum</i> lactate dehydrogenase		Pyrazole	
<i>In silico</i> study of 4-amino substituted-7-chloroquinoline derivatives as <i>Plasmodium falciparum</i> lactate dehydrogenase inhibitors	443	Design, structural characterization, biological evaluation and molecular docking studies of methylindole bearing thiocarbamoylpyrazole moieties	418
Plastic orchiectomy		Pyrimidines & pyrrolidine derivatives	
Plastic orchiectomy and some indicators of improvement of vital parameters and general condition of the organism in blood of the men with prostate cancer	39	QSAR and molecular docking studies on pyrimidine and pyrrolidine derivatives as potent inhibitors of influenza virus neuraminidase	401
Polyphenols		qPCR	
The biological role of bioactive compounds from plants, bacteria, and bee-products in cancer prevention and therapy	455	<i>In silico</i> analysis and expression profiling for Resistance Gene Analogues (RGAs) and defence-related genes in early germinating conditions of rice against bakanae disease caused by <i>Fusarium fujikuroi</i>	714
PPCDC		qRT-PCR	
Characterization of DhHal3p: A moderately thermostable FMN-Binding Flavoprotein with biomedical potential from halotolerant yeast, <i>Debaryomyces hansenii</i> using partial structure prediction	430	Functional relationship of Interferon regulator factor-5, Interferon- γ , and Hypoxia-induced factor-1 α with COVID-19 during Pregnancy	259
Pregnancy		Quality	
Functional relationship of Interferon regulator factor-5, Interferon- γ , and Hypoxia-induced factor-1 α with COVID-19 during Pregnancy	259	Rapid genomic DNA extraction for Soybean (<i>Glycine max</i> L. Merr) using modified CTAB protocol to obtain high-quality DNA	97
		Quantitative structure-activity relationship (QSAR) study	
		QSAR and molecular docking studies on pyrimidine and pyrrolidine derivatives as potent inhibitors of influenza virus neuraminidase	401

Rat		Secondary metabolite	
Antitumor activity of <i>Urtica dioica</i> seed extract on diethylnitrosamine-induced liver carcinogenesis in rats	16	Evaluation of phenotypic characters and total phenol content in T1 putative transgenic yellow cosmos (<i>Cosmos sulphureus</i> Cav.) with <i>SoSPS1</i> transgene	704
RDG		Selected triazoles	
Some Co(II)-Schiff base complexes as promising anticancer agents: A DFT and molecular docking study	354	Evaluation of inhibitory activity of few selected triazoles on xanthine oxidase – <i>In silico</i> studies	485
RGAs		SEM with EDX	
<i>In silico</i> analysis and expression profiling for Resistance Gene Analogues (RGAs) and defence-related genes in early germinating conditions of rice against bakanae disease caused by <i>Fusarium fujikuroi</i>	714	Spectroscopic analysis, Microscopic imaging and Antibacterial activities of <i>Syzygium cumini</i> , <i>Andrographis paniculata</i> , <i>Gymnema sylvestre</i> and <i>Mimosa pudica</i>	539
Reactive blue		Serum albumins	
Binding interaction of laccases and Peroxidases from <i>Bacillus Subtilis</i> after Industrial dyes exposure: Molecular docking and Molecular dynamics simulation studies	48	Interaction of a new triazole compound with Serum albumins and Proteolytic enzyme Bromelain by Steady state fluorescence and Molecular docking techniques	305
Reactive oxygen species		Serum levels	
Evaluation of ethanol extract of <i>Morus nigra</i> L. as an inhibitory agent for DNA-Advanced glycation end product (DNA-AGEs)	75	Trace elements as potential biomarkers for oral squamous cell carcinoma	731
Regulatory approvals		Sheep	
Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7	Cloning, phylogeny and three dimensional structure analysis of the gene encoding Interferon- ϵ of Sheep (<i>Ovis aries</i>)	232
Relative water content		Simiarenol	
Deciphering the physio-biochemical dynamics of wheat (<i>T. aestivum</i> L.) genotypes during water deficit stress	563	Computational screening, docking and simulation analysis of phytochemicals from <i>Senna auriculata</i> against multiple targets of <i>Mycobacterium tuberculosis</i>	688
Response surface methodology		Sol-gel	
Optimization studies of L-glutaminase production from <i>Halomonas hydrothermalis</i> B-15-9-2 isolated along Gujarat coasts	153	Transforming expired medicines into TiO ₂ nanoparticles	829
Rhamnolipid production		SPN-ARR domains	
Repurposing drugs as uS12 ribosomal protein inhibitors to overcome UTI resistance in MDR <i>Pseudomonas</i> strains: <i>In silico</i> and <i>in vitro</i> study	672	Computational investigation on the impact of point mutations on the N-terminal domain of SHANK3, indicating distinct synaptopathies in Autism spectrum disorder	527
Rice		Stigmasterol	
<i>In silico</i> analysis and expression profiling for Resistance Gene Analogues (RGAs) and defence-related genes in early germinating conditions of rice against bakanae disease caused by <i>Fusarium fujikuroi</i>	714	Therapeutic potential of Stigmasterol and Kaempferol on multidrug-resistant malaria	197
Rimegepant		Computational screening, docking and simulation analysis of phytochemicals from <i>Senna auriculata</i> against multiple targets of <i>Mycobacterium tuberculosis</i>	688
Investigation of cholinergic inhibition by donepezil-rimegepant hybrids in alzheimer's disease: An <i>in silico</i> study	788	Sugar accumulation	
Rivaroxaban		Evaluation of phenotypic characters and total phenol content in T1 putative transgenic yellow cosmos (<i>Cosmos sulphureus</i> Cav.) with <i>SoSPS1</i> transgene	704
Preparation and evaluation of spray dried powder of <i>Trigonella foenum-graecum</i> seeds as suspending agents to develop rivaroxaban nanosuspension	105	Sustainability	
Savings		Transforming expired medicines into TiO ₂ nanoparticles	829
Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7	SwissADME	
		Identification of small molecule inhibitors against doublecortin-like kinase 1 for targeting colon cancer stem cells	552

Synthetic polymers		Tumor suppressor	
Progressive exploration on the influence of natural polymers and emerging biomaterials in advanced wound care strategies	127	Computational strategies for identifying high-risk SNP of PTEN in prostate cancer: A Mutational profiling study	279
TFAM		Uric acid	
Apoptotic effect of antioxidants with silver and titanium dioxide nanoparticles on glioblastoma cancer cells in BALB/C mice	776	Evaluation of inhibitory activity of few selected triazoles on xanthine oxidase – <i>In silico</i> studies	485
Therapeutics		Urinary tract infections	
Role of biosimilar pegfilgrastim in the treatment of febrile neutropenia: A Mini Review	7	<i>In vitro</i> efficacy of phytotherapeutics for the prevention of urinary tract infections in pregnant women	182
Thioguanine nucleotide		<i>Urtica dioica</i>	
<i>In vitro</i> cytotoxicity analysis on patient-derived PBMCs to predict 6-mercaptopurine therapy response in children with acute lymphoblastic leukemia	371	Antitumor activity of <i>Urtica dioica</i> seed extract on diethylnitrosamine-induced liver carcinogenesis in rats	16
Three dimensional structure		UV-Vis	
Cloning, phylogeny and three dimensional structure analysis of the gene encoding Interferon- ϵ of Sheep (<i>Ovis aries</i>)	232	Spectroscopic analysis, Microscopic imaging and Antibacterial activities of <i>Syzygium cumini</i> , <i>Andrographis paniculata</i> , <i>Gymnema sylvestre</i> and <i>Mimosa pudica</i>	539
<i>Thuja occidentalis</i>		Virtual screening	
Identification of potential lead compound from <i>Thuja occidentalis</i> as an inhibitor of FMS-like tyrosine kinase 3 (FLT3) in acute myeloid leukemia through virtual screening	472	Assessing Inhibitory potential of natural compounds against BACE1 in Alzheimer's disease: A molecular docking and molecular dynamics simulation approach	345
Titanium dioxide		Identification of small molecule inhibitors against doublecortin-like kinase 1 for targeting colon cancer stem cells	552
Transforming expired medicines into TiO ₂ nanoparticles	829		
TMPyP4		Vitamin C	
Stabilization of G-quadruplexes in Intronic Hematopoietic-specific Enhancer of <i>WTL</i> gene with G-quadruplex targeting ligands: <i>in silico</i> and <i>in vitro</i> techniques	67	Apoptotic effect of antioxidants with silver and titanium dioxide nanoparticles on glioblastoma cancer cells in BALB/C mice	776
Traditional Chinese medicine database		Vitamin E	
Identification of small molecule inhibitors against doublecortin-like kinase 1 for targeting colon cancer stem cells	552	Apoptotic effect of antioxidants with silver and titanium dioxide nanoparticles on glioblastoma cancer cells in BALB/C mice	776
Triazole		<i>Vitex negundo</i> L.	
Interaction of a new triazole compound with Serum albumins and Proteolytic enzyme Bromelain by Steady state fluorescence and Molecular docking techniques	305	<i>Vitex negundo</i> L. leaf extract suppresses the cell cycle and promotes apoptosis in colon cancer cells	269
Tryptophan		<i>WTL</i> intronic hematopoietic-specific enhancer	
Assessment of quality protein parameters of <i>Zea mays</i> L. through high throughput biochemical analysis	627	Stabilization of G-quadruplexes in Intronic Hematopoietic-specific Enhancer of <i>WTL</i> gene with G-quadruplex targeting ligands: <i>in silico</i> and <i>in vitro</i> techniques	67
Tuberculosis		Xanthine Oxidase	
The comprehensive computational study on PE11 gene of <i>Mycobacterium tuberculosis</i> involved in virulence	85	Evaluation of inhibitory activity of few selected triazoles on xanthine oxidase – <i>In silico</i> studies	485

Yellow 2g Binding interaction of laccases and Peroxidases from <i>Bacillus Subtilis</i> after Industrial dyes exposure: Molecular docking and Molecular dynamics simulation studies	48	Zeta potential Preparation and evaluation of spray dried powder of <i>Trigonella foenum-graecum</i> seeds as suspending agents to develop rivaroxaban nanosuspension	105
<i>Zea mays</i> L. Assessment of quality protein parameters of <i>Zea mays</i> L. through high throughput biochemical analysis	627	Zinc Synthesis, spectral characterization and free radical scavenging activity of zinc-genistein nano complex	497
Zearalenone <i>In vitro</i> toxicological investigation of <i>Fusarium</i> <i>graminearum</i> toxins in <i>Rattus norvegicus</i> myocardial H9c2 cells	838	Trace elements as potential biomarkers for oral squamous cell carcinoma	731
