VOLUME 63

NUMBER 3

MARCH 2026

CODEN: IJBBBQ 63 (3) 237-364 (2026)

ISSN: 0301-1208 (Print); 0975-0959 (Online)

CONTENTS

A Review

Computational modeling for predicting the drug metabolism: A novel approach for developing new drugs and to predict drug interactions 241

KRS Sambasiva Rao, T Bhanuteja, TE Gopalakrishna Murthy* & B Sudheer Chowdary

Papers

DFT-Based Analysis of 2, 3-dimethyl-2-(3-oxobutyl)-cyclohexanone: Structural, Electronic, Vibrational, and Molecular docking studies for potential anti-cancer applications 253

Revathi G, Rajesh P*, Dhanalakshmi E, Kayashrini S, Lawrence M, Prabhakaran M & Arularasan P

Exploring therapeutic potential of repurposed drugs in chagas disease: An integrated network pharmacology and molecular docking approach 267

Sai Harini S*, Shyamala S & Sabishruthi S

Gut-brain axis modulation of *Prosopis juliflora* pods: Integrated *in silico* and *in vivo* approach for neuroprotective and gut restorative therapeutics 280

Preyenga R*, A Anita Margret, R Gayathri, Sujidha S & Lokeshwaran S

A novel *in silico* approach for identifying defense-related biomarkers from *Neurospora crassa* during plant associations to understand pathogenicity mechanisms 288

Vaishnavi SL, Rashmi Hosamani, Sharathchandra RG*, Santosh Kumar HS & Chandrashekar CR

Generating an efficient BACE1 inhibitor for the treatment of Alzheimer's disease based on AI-powered ADMET analysis, Molecular docking and Molecular dynamics studies 297

Latha V*, Gomathi V, Hari Ram S, Vidhyavathi RM & Prabhu D

Repurposing of statins: An *in silico* approach aimed at inflammation resolution pathways 311

Jaikanth CM, Ramasamy Thangamalai*, Ramesh Srinivasan, Chandrasekar M, Manoharan Parthiban, Jalantha P, Raja Paramasivam, Jayanthi M, Akshay Durga Prasad M & Mythrayee R

Targeting neuroinflammation: Anti-alzheimer's mechanism of *Cassia fistula* via *in silico* approaches 321

Sai Kiran, Wurood A Shihab, Ammar A Razzak Mahmood, Shaik Sadik, Sreeharsha Nagaraja, Mohammed Monirul Islam, Bipindra Pandey, MK Mohan Maruga Raja & Shankar Thapa*

Impact of genistein on oxidative stress biomarkers in erythrocytes: A study in IPD patients 341

Nikhila Khola, Kareena Moar, Surekha Dabla & Pawan Kumar Maurya*

In silico investigation on the effect of p27 phosphorylation in regulating Cdk2/CyclinA complex 351

Khyati Goswami, Prerana Kalita, Trishna Deka & Venkata Satish Kumar Mattaparthi*

*Author for correspondence
