

Indian Journal of Biochemistry & Biophysics

<http://www.niscpr.res.in>; <http://nopr.niscpr.res.in>

Special Issue on
“Multiple facets of Protein Science”

VOLUME 60 **NUMBER 9** **September 2023**
CODEN: IJBBQ 60 (9) 635-758 (2023) ISSN: 0301-1208 (Print); 0975-0959 (Online)

CONTENTS

A Review

- Design and development of mutant EGFR inhibitors from a structural perspective 645
David E Heppner*
- Mechanistic insights into the oncogenic partnership of hADA3 and HPVE6 - paving ways for improved cervical cancer therapy 651
Santonu Kumar Pradhan, Nandini Sahani[#], Preeti[#] & Alo Nag*
- Protein Carbamylation in Neurodegeneration and other age-related disorders 659
Krishna Bhavsar, Vivek Shekhar & Sharad Gupta*
- Newly-discovered behaviour in the bacterial histone-like protein, HU 666
Archit Gupta, Bhishem Thakur, Kanika Arora & Purnananda Guptasarma*

Papers

- Genotypic, phenotypic, and *in silico* analysis of carbapenem-resistant *Klebsiella pneumoniae* 673
Suraj Shukla[#], Heli Upadhyaya[#], Payashwini Sisodiya, Sanjay Kosara & Devarshi Gajjar*
- Mitigation of pathological parameters under Jagged1 influence in DMD knockout zebrafish and patient-derived myoblast cultures 681
Vishakha Nesari, Juhi Vaishnav, Shashikant Sharma, Upendra Nongthomba & Suresh Balakrishnan*
- Isolation, purification and characterization of a protease from the seeds of *Artocarpus heterophyllus* 690
Monika Pandey & Krishnan Hajela*
- Polyphenol MHQP as an allosteric inhibitor of Kinesin-5: Cease the molecular catwalk of “Drunken Sailor” 703
Manjari Shukla, Sushobhan Maji, Keshav Rajarshi & Sudipta Bhattacharyya*
- Solution structures and thermodynamics of cis-trans X-Pro conformers of a novel single disulfide conopeptide 710
Aswani K Kancherla and Siddhartha P Sarma*
- Synthesis, DFT and Molecular docking study of novel bis 1,2,3-triazole derivatives of 2-hydroxyquinoline-4-carboxylate as antimicrobial agents 729
Kandukuri Usha Rani, Gangavaram VM Sharma, Shalini Saxena, Lalitha Guruprasad & DA Padmavathi*
- Determination of neuroprotective effects of medium chain fatty acids and their derivatives on mutant huntingtin aggregates, oxidative stress and ATP levels in HD150Q cell line model of Huntington’s disease 741
Rajubhai Dabhi, Ragi Mehta, Jayshree Paneri, Dhruvi Kakadiya, Anjali Shah, Sushmita Singh & Ravi Vijayvargia*
- The role of water molecules and its dynamics to the binding site of β -lactamase enzyme with respect to β -lactamase inhibitor 750
Siddhi Darji, Purvi Trivedi, Vandan Mehta & Devjani Banerjee*

*Author for correspondence

Keyword Index

1,2,3-triazoles	729	Dynamic light scattering	690	Myotubes	681
2-butyloctanoic acid	741	E6	651	Neurodegenerative diseases	659
Age-related disorders	659	Glyceryl triacetate	741	Nucleoid associated proteins (NAPs)	666
Allosteric Inhibitor	703	Golden retriever muscular dystrophy (GRMD) model	681	Oxidative stress	741
Antimicrobial activity	729	hADA3	651	Peptide	651
Antimicrobial resistance (AMR)	750	Histone-like protein	666	Post-translational modifications	659
<i>Artocarpus heterophyllus</i>	690	HPV	651	Proteases	690
BAPNA	690	HU	666	Protein engineering	666
Biofilms	666	Huntington's disease	741	Protein evolution	666
Cancer biology	645	Jagged1 peptide	681	Quinolines	729
Carbamylation	659	Kinase inhibitors	645	Serine endopeptidase	690
Carbapenemases	673	Kinesin Eg5	703	Solution NMR	710
CD spectra	690	<i>Klebsiella pneumoniae</i>	673	Structural biology	645
Cervical cancer	651	Leaky gene expression	666	SUMOylation	651
cis peptide bond	710	Liquid-liquid phase separation	666	Tryptophan photooxidation	666
Conopeptide	710	Medicinal chemistry	645	Water mediated interactions	750
Conotoxin	710	MHQP	703	Whole genome sequencing	673
Decanoic acid	741	Minimum inhibitory concentration (MIC)	673	Zebrafish	681
DFT	729	Mitochondrial dysfunction	741	β -lactamase inhibitors	750
Disulphide bond	710	Molecular docking	673, 729	β -lactamase	750
DNA compaction	666	Molecular Dynamics Simulation	703		
DNA condensation	666	Mutant huntingtin aggregates	741		
DNA-binding protein	666				
Docking	750				
Drug design	645				
Duchenne Muscular Dystrophy	681
