

Keywords Index

3-D printing	416	Micrgrid	405
Adaptive pelican optimization algorithm	405	Micro plasma arc welding (MPAW)	397
Additive manufacturing	416	Microstructure	434
Artificial neural network (ANN)	397	Microstructure estimation	327
Activated Carbon	351	Modal frequency	343
		Modified groundnut shell	425
Band placement of fertilizer	416	Multilayer perceptron algorithm	358
Bio-additive	388		
Bio-concrete	388	Nuclear-Renewable Hybrid Energy Systems	405
Cactus	388	Paddy drum seeder-cum-fertilizer applicator	416
Carbon fibre composite	343	Partial shading	450
Checking repeatability	327	Permeation	434
Convolution neural networks (CNN)	434	pH	425
Concrete	434	Photovoltaic array	450
Crystal Growth	335	Photovoltaic modeling	450
		Post weld heat treatment (PWHT)	397
Data-driven vehicle design	358		
Deflection	388	Raman spectra	327
Direct seeded rice	416	Recycled aggregates	434
Distortion	397	Residual stress	397
Dual media filter	351		
		Sand	351
Equilibrium time	425	SdH Oscillations	335
		Stability	405
Fault detection	450	Structural analysis	343
Fault diagnosis	450	Structural steel	343
Finishing	374	System frequency	405
Flexural beam	388		
Fractional-order proportional-integral-derivative (FOPID) controllers	405	Tertiary treatment	351
		Topological materials	335
Hybrid chassis	343	TOPSIS	374
		Torsional stiffness	343
Iron slag	434		
		Up-flow	351
Kinetic modeling	425		
		Viscosity	374
Langmuir adsorption isotherm	425		
Lead	425	Wavelet packet transform	450
Longitudinal vehicle dynamics model	358		
		X-Ray Diffraction	327
Magneto-resistance	335		
Magnetorheological fluid	374	Yield shear stress	374
Mass prediction	358		
Medium-duty truck	358
